

The Tribune.

Established October 10, 1901.
Only Republican Newspaper in the County.
HENDRICKS & GILLESPIE,
PUBLISHERS.
OFFICE—Bissell Building, Corner LaPorte
and Center Streets. Telephone No. 27.
Entered at the postoffice at Plymouth, Indi-
ana, as second-class mail matter.
Plymouth, Ind., November 17, 1904.

Notice.

With this issue the Daily and Weekly Tribune pass to the management of Hendricks and Gillespie, with F. L. Gillespie managing editor. The policy of the paper will continue as heretofore, ever advocating republican principles, and will stand for all that is good politically and socially. Farther than this we make no promises as to the future but will strive to give the people of Plymouth and Marshall county a paper worthy their support and patronage.

Yours Respectfully,
HENDRICKS & GILLESPIE.

Republican landside proves that President Roosevelt was himself the sole issue of the campaign.

Roosevelt has 343 electoral votes, Parker 133; Roosevelt's plurality of popular votes exceeds 2,000,000; records broken in all but seven states.

The Michigan delegation in congress will be solidly republican and there was not a democrat elected to the legislature of that state. A monotonous result.

There is one glorious thing about these big majorities in the doubtful States—no one will have the hardihood to say that they were due to the corruption of the voters. You can not buy a political landslide.

Here is a sentiment uttered by Senator Beveridge, that men of all parties can adopt as their own. "A party is a bad thing when it cares only for party interests, and a good thing when it cares only for the interests of the nation."

All credit and praise to the level headed democrats who helped gain the great victory and insure a continuance of prosperity and good government. May they be so well satisfied with their action that they will remain in the ranks of the republican party.

Senator Parks beats Mr. Scott 1,252 votes in Kosciusko county and is elected by 1,250 majority in the district. We judge that Scott, the liquor league and their prohibition allies who combined to beat Mr. Parks have learned a lesson that will do them some good.

Every time Cleveland wrote an article or spoke his views during the campaign he made votes by the wholesale for Roosevelt in Indiana. His assertion that the democratic party returned to safety and sanity at St. Louis helped to pile up the republican majority.

The county candidates on the prohibition ticket ran behind Swallow, Alleman for state senator got 154 votes; Hahn for representative 162; Tribbey for treasurer 166; Zechel for recorder 164; Ruple for coroner 146; Williams and Cannon for commissioners have 161 and 180 votes respectively.

The election of democratic governors in states that gave Roosevelt high pluralities proves that the voters whose ballots decide things think on questions and vote from principle. They endorse the government and condemn state affairs at times. While such conditions endure there is no danger to the republic.

In St. Joseph county Roosevelt beats Parker 5,199. Hanly beats Kern 4,909 and Fogarty for secretary of state was snoged under by 4,808. For congress, Brick beats Hering 3,572, running 1,506 votes behind Roosevelt, but he carries the district by over 7,000. His plurality is almost four times what it was two years ago.

In our opinion no man contributed more to Roosevelt's immense majority than did Grover Cleveland. The fact that the ex-president was making speeches for Parker and declaring that he and Parker coincided in their opinions as to how the government should be run, convinced tens of thousands of democrats that it was their duty to vote for Roosevelt. They did not want another Cleveland administration.

Probably no person was ever nominated for Vice-President with so distinct a recognition of his fitness for President as was Senator Fairbanks. The nomination not only sought but pursued him, and when it was made the people felt that the constitutional requirement of presidential fitness in the incumbent of the second office had been fully complied with. There can be no doubt that the demand for the nomination of Mr. Fairbanks was based largely on this idea and on the feeling that his recognized fitness would contribute materially to the success of the ticket.

The World's Fair as an educator stands without a peer, judging from results of the recent election in old Missouri.

In every state Roosevelt runs ahead of the republican state ticket. During the last weeks of the campaign he was made the issue and the people have shown by their votes what they think of him.

General gratification will be felt over the announcement that Secretary Hay will remain in the cabinet. The country is very proud of him, and places entire confidence in him. It never has a greater statesman in the office.

Roosevelt's plurality, or majority over Parker in Indiana is about 93,000. Hanly has 84,000 over John W. Kern for governor. These pluralities are three times as large as were ever given any candidates for these offices in Indiana before.

John B. Stoll of the South Bend Times, says, the address of Hon. Elihu Root at the Chicago convention which nominated Roosevelt was the ablest convention speech ever delivered in a presidential assembly. This is high praise from probably the ablest democratic editor of Indiana.

The Washington politicians are already preparing a new cabinet, but a little reflection suggests that there is one gentleman who will have a strong say so and that he who is merely a politician will not be one of the advisors of the head of the nation.

Congressman Crumpacker is preparing to press his resolution reducing representation in the south on account of negro disfranchisement. Crumpacker is firmly of the opinion that this is the true solution of the race question, and it is right no matter what effect it may have on that question. Right always makes might and in the end prevails.

Over 52,000 votes were cast in this congressional district Tuesday, Nov. 8, to elect one congressman, but in every state carried by Parker 52,000 votes elect five congressmen. There is no better answer than this as to why party is in favor of government by the people and this no doubt is one of the great reasons why the democratic cry of imperialism was so signally rebuked.

Russo-Japanese War.

The Russians at Port Arthur have commenced a general withdrawal from the city and are retreating to the Liaotian peninsula, whither they have removed their provisions. This confirms the statements made by Russian prisoners that General Stoessel will make his final stand on Liaotian.

The last sortie made by the Port Arthur fleet, on Aug. 10, was followed by a naval battle in which the battleship Czarevitch was practically demolished, but managed to reach the German port of Kiauchau, where it remains, a dismantled bulk. The cruiser Askold, badly damaged, reached Shanghai and the Diana, also nearly a wreck, went to Saigon. The other ships of the fleet put back to Port Arthur.

The arrival of a Russian torpedo boat at Chefoo is believed to signal another attempt of the fleet to escape. Latest reports from official Japanese sources before Port Arthur indicate that the end is near. A delayed dispatch from Gen. Nogai headquarters received at Mokio via Fusan this morning shows that starvation has begun its work and that the Russians are short of ammunition. It says: "Spies and Russians who have surrendered report that rations in the fortress have been reduced. The wounded found by the Japanese are emaciated."

From Lieutenant Governor Miller.

Columbus, Ind., Nov. 14, 1904.
Hendricks & Gillespie,
Plymouth, Ind.
Gentlemen:—I am under obligations to you, or some one of your county, for a copy of the Tribune giving the result in Marshall County. You have my sincere congratulations on the effective work up your way. My only regret is that my old friend, Doctor Parker, was not elected representative. It was probably because of his surname.

Sincerely Yours,
HUGH TH. MILLER.

WANTED.

The Tribune wants at least one correspondent in every township in the county, and will furnish postage, stationery etc. Write for or call and get instructions and commence now sending in the news of your neighborhood.

Culver Defeats Armour.

Outwitted and outplayed at every point Armour academy was easily defeated by Culver Saturday. The cadets found no difficulty in gaining ground, but in the first half the fumbling and offside play cut down the score.

For the cadets Barrett, Campbell, Cavanaugh and Humphrey gained constantly and plunged through the line or circled ends at will.

Secretary Taft leaves this week to straighten matters out in Panama. It still looks as if mighty little time were going to be wasted in building the canal.

Eugene F. Ware, commissioner of pensions tenders his resignation Monday and it was accepted by President Roosevelt to take effect January 1. There is no office in the government that is harder to fill.

Complete returns from Missouri give Roosevelt a majority of 27,028. Folk, democrat, was elected governor by 26,868, the remainder of the republican state ticket was elected and it is now proper to say "grand old Missouri."

The London Daily Telegraph's correspondent at St. Petersburg asserts that the Emperor has decided to send out the second division of infantry of the guards as soon as the troops already called out shall have been dispatched to Manchuria. The guards usually are only sent to the front when there is a monarch or a grand duke in command. The dispatch of these troops, the correspondent adds, shows the determination of the Emperor to struggle to the bitter end.

A Light Vote in Marshall County.

The official vote of this county given in another column, shows that a light vote was cast.

While Roosevelt carries the county by 123 plurality, he received just 110 votes more than were given McKinley in 1900, when Bryan had a plurality of 519.

This would seem to indicate that over 400 democrats failed to vote, and that less than 100 democrats voted for Roosevelt; but it is a fact that quite a number of republicans were at home.

The best politicians of both parties said during the campaign that the central organization of neither party was strong. The vote shows that they were correct.

Quite a number of townships had good organizations and the result is due to the good work of republicans in the various precincts, regardless of central committees.

Most of the money spent by both central organizations was thrown away, and the honest, intelligent voters of the county who worked for the triumph of principles and continued prosperity without pay, won the victory.

If republican trustees and republican county officers are honest and economical Marshall county will remain in the republican columns where it rightfully belongs.

But if county officers spend their time in schemes to increase their salaries and township trustees sell out to the supply men who will give them the most money and do not reduce taxes then Marshall county will go back to the democratic party. The officers elect must show that they deserve the confidence the people have reposed in them if republican success is to be maintained.

Farmers' Institute.

The Marshall County Farmers' Institute will be held at Plymouth, on Friday and Saturday, January 13 and 14, 1905; at which time will be held a corn show, as per previous announcement. Farmers are requested to take notice of this corn show and make their selections.

DAVID VAN VACTOR, Pres.

WARREN MCFARLIN, Sec'y.

Letter From Senator Parks.

TO MY MANY FRIENDS:
It is not possible to meet my many friends in the two counties personally and thank them for their kindness to me in the last election. I had assurance of my re-election to the state senate but could hardly have expected my majority increased from 263 four years ago to 1250 this election.

I want to say to my friends of all political parties that I appreciate your many courtesies and thank you for the confidence you have shown in me. It shall be my highest aim in the future as in the past to do that which I believe for the best interests of the whole people regardless of political party.

Plymouth, Ind., November 15, 1904.

JOHN W. PARKS.

Merchants Agree to Close Early.

We the undersigned, merchants of the city of Plymouth, Indiana, hereby agree to close our respective places of business from November 22nd, 1904 up to January 1st, 1905 at 8 o'clock p. m. and we also agree to close from January 1st, 1905, to March 1st 1905 at 6 o'clock p. m., excepting Monday and Saturday nights of each week and also week of 19th to 26th of December.

TWO MILLION PLURALITY.

Is What Roosevelt Has With 343 Electoral Votes to 133 for Parker.

The solid south is broken. Missouri and Maryland have wheeled into the republican column and Roosevelt has 343 electoral votes to 133 for Parker.

The president has a popular majority of two millions which is the largest ever given any other presidential candidate.

The landslide presents many remarkable features. In every state but one, Maryland, the Roosevelt plurality is greater than that received by McKinley four years ago.

In all but six other states the majority is the greatest ever received by a republican candidate for president. Pennsylvania leads with the astonishing figures of 490,000, of which Philadelphia alone contributed 180,000.

Illinois takes rank as the second republican state with 292,245, of which 123,411 plurality was given by Cook county.

Outside of New York which gave 174,000, and Pennsylvania, Roosevelt ran best in the west, where he was best known and best understood.

President Roosevelt said yesterday: "The party's victory is so big as to seem preposterous..." and that is the general opinion of the leaders in each state of the west. Ohio gives 200,000, Iowa 140,000, Michigan 142,000, Kansas 100,000.

Bryan's own state of Nebraska gives 75,000 plurality. This cannot be attributed wholly to any talking on the part of the silver leaser's friends for the fusion combination failed in its expected easy victory in the legislature and Mr. Bryan will not have a seat in the senate to lend prestige to his attempts to reorganize the democratic party.

Hearst's state, California, equals Nebraska's figures. Evidently the Pacific coast is not in favor of abandoning the Philippines. Washington gives 30,000, which means more proportionately than does Illinois' big vote.

Complete returns increase the earlier Roosevelt pluralities in the four states which were carried by Bryan four years ago, and which were lost by Parker this year. Colorado's plurality is 15,000, Idaho's 7,000; Montana's 10,000, and Nevada's 2,000.

Harry New for Senator.

Harry S. New, national committee-man from Indiana and member of the republican national executive committee, announced Thursday night, that he would be a candidate for the senatorship to be made vacant when Vice-president-Elect Fairbanks resigns the position he now holds.

BIG SPECIAL SALE!
